HOBO® U23 Pro v2 Data Loggers

Pro v2 family are weatherproof data loggers designed for years of reliable use in harsh outdoor or condensing environments.

The Temp/RH sensor provides fast response and superior durability in humid conditions. Pro series loggers are waterproof, have high accuracy temperature and RH sensors (replaceable RH sensor) and fast and reliable download via an optic USB interface.

HOBOWare software and Base Station, or Shuttle required for launch & download.

- **Memory:** 42,000 measurements
- **Sampling Rate:** 1sec to 18 hrs fixed rate or multiple logging intervals, with up to 8 user defined logging intervals and durations
- **Time Accuracy:** 1 min per month at 25°C
- **Battery Life:** 3 yrs (typical)
Replaceable ½ AA 3.6v lithium battery
- **Housing Dimensions:** 102 x 38 mm

HOBO Pro v2 Data Logger Family

Internal Temperature & Relative Humidity Measurement

Temp. Measurement Range: -40 to +70°C Accuracy: 0.2°C over 0 to 50°C Resolution (12-bit): 0.02°C

Part No: U23-001

External Temperature & Relative Humidity Measurement

Temp. Measurement Range: -40 to +70°C Accuracy: 0.2°C over 0 to 50°C Resolution (12-bit): 0.02°C
RH Measurement Range: 0 to 100%RH Accuracy: 2.5% from 10 to 90% Resolution (12-bit): 0.03%RH

Part No: U23-002

2 x External Temperature Measurement

Temp. Measurement Range: -40 to +100°C Accuracy: 0.2°C over 0 to 50°C Resolution (12-bit): 0.02°C

Part No: U23-003

Internal & External Temperature Measurement

Internal Temp. Meas. Range: -40 to +70°C Accuracy: 0.2°C over 0 to 50°C Resolution (12-bit): 0.02°C
External Temp. Meas. Range: -40 to +100°C Accuracy: 0.2°C over 0 to 50°C Resolution (12-bit): 0.02°C

Part No: U23-004
