

FieldScout Bluetooth Device for TDR 300

Product Images

Short Description

FieldScout Bluetooth Device connects to the FieldScout Mobile App, instantly see your data on your smart phone or tablet

Description

FieldScout Bluetooth Device connects to the FieldScout Mobile App (available soon), instantly see your data on your smart phone or tablet. App works on iOS and Android devices with Bluetooth Smart connection. Your existing TDR 300 can now be equipped with our FieldScout Bluetooth Device. The device plugs into the data port in the bottom of the TDR's console, making installation simple. Included velcro strips allow you to mount it in a location on the TDR bracket. Firmware version 6.5 or higher required for FieldScout Bluetooth Device connection (order Item #CHIP-TDR3 above for newest firmware version)
