

HOBOLink - Powerful Web-based Access to Your Data

Product Images

Short Description

HOBOLink is a web-enabled software platform that makes it easy to view and to manage your data remotely. Enables easy access to current and historical data, alarm notifications and relay activations, and management and control.

Description

HOBOLink is a web-enabled software platform that makes it easy to view and to manage your data remotely.

- 24/7 access to your data, via a web browser or mobile device
- Verify HOBOLink status remotely
- Set up and manage alarm notifications remotely
- Schedule automated delivery of data
- Configure a dashboard that highlights your most important measurements
- Create dashboards that bring data from multiple systems together in a single view
- Configure calculated channels such as dew point, accumulated rainfall, and evapotranspiration (ET)
- Export the exact date range and sensors you want.
