

Kestrel DROP D3 Wireless Temperature, Humidity & Pressure Data Logger

Product Images

Short Description

The Kestrel DROP D3 data logger is ideal for wireless monitoring of temperature, relative humidity, heat stress index, dew point temperature, station pressure, density altitude.

Description

The Kestrel DROP D3 is designed to monitor and record a full suite of environmental conditions, including temperature, humidity, heat index, dew point temperature, station pressure, density altitude and pressure trend in a variety of indoor, outdoor and industrial applications.

Kestrel DROP data loggers are designed to be used anywhere you need to track environmental conditions. DROP loggers meet military and international standards for water, dust and shock resistance and are equipped with a sturdy D-ring for hanging wherever needed.

- View data wirelessly (up to 100 ft range) via Bluetooth Smart on your iOS or Android phone or tablet with the free Kestrel LiNK app
- Store thousands of data points and get months of logging on a single coin-cell battery – customise logging rate, connections and temperature alerts
- Drop-Tested to MIL-STD-810G
- Waterproof to IP67 (1 metre submersion for 30 minutes)
- Floats.

Additional Information

Country of Manufacture	United States
Brand	Kestrel
Measurements	Barometric Pressure, Dew Point, Humidity, Pressure, Temperature
Typical applications	Automotive, Building Monitoring, Building Performance, Environmental (Indoor), Environmental (Outdoor), Field Research, Thermal Comfort, Weather Monitoring

Use a DROP Anywhere - Small, Accurate, Rugged and Waterproof

The Kestrel DROP D3 employs a sealed precision thermistor mounted externally and thermally isolated for rapid response to monitor and record temperature over an operational and specification range of 10°C to 55°C within +/- 0.5°C accuracy. Each Kestrel DROP Data Logger is powered by one easily replaceable CR2032 lithium coin cell battery that will last up to 4 months (typical conditions and logging/connection settings). The DROP D3 holds more than 13,000 temperature readings.

Powered by the Kestrel LiNK App

[DOWNLOAD KESTREL LiNK FOR IOS](#)

[DOWNLOAD KESTREL LiNK FOR ANDROID](#)

Kestrel LiNK is the free app that powers the DROP loggers. With Kestrel Connect, you can view real-time readings from any DROP logger within wireless range (100 ft or more line of sight) via *Bluetooth® low energy*. Each phone or tablet can connect to up to 8 DROP loggers at the same time and store data logs from many more. Min/Max/Average readings are clearly displayed and the log is viewable as a scrolling graph with detailed data for each logged point.

The app also allows adjustment of the logging interval and other settings as well as real-time threshold alerts. Readings can be updated as frequently as every 2 seconds and logging time and date are automatically updated whenever connected to your smart device. Send and share real-time and logged environmental data via email, Facebook or Twitter.

Requirements:

- iOS 6 installed iPhone 4s, iPad 3rd generation, iPod Touch 5th generation and above.
- Android 4.2 and higher. Works with most Android devices with Bluetooth® low energy, including Samsung Galaxy, Nexus 4, Motorola Droid, and other recent generation phones and tablets.

American-Made Quality and a Five-Year Warranty

Every Kestrel environmental instrument is designed and built entirely in the USA. Kestrel's history and focus on quality and ruggedness is reflected in the DROP's industry-leading five-year warranty. Kestrel has been building rugged environmental instruments that help people do their jobs more safely and efficiently for more than fifteen years and has built a reputation for reliability one metre at a time.
