Short Description

The Portable Mini Tripod is a low-profile base for your Kestrel Vane Mount or Clamp.

Description

The Portable Mini Tripod is a low-profile base for your Kestrel Vane Mount or Clamp. Three adjustable legs, non-slip vinyl feet and a wide base provide stability and resist wind toppling. The tilt/rotate U-ball head makes it easy to use the Portable Tripod on uneven surfaces. A strong Velcro® strap can also be used to secure the tripod to tree limbs, railings, pack frames and more.

Nylon construction for extreme break-resistance in your pack.

Note: This item does not include a clamp. If you would like to attach your Kestrel directly to the tripod, please order [Kestrel Portable Tripod with Clamp 0799](#).
