DISCONTINUED: Davis Vantage Connect GPRS Transmitter for Wireless Weather Stations (3G)

Product Images

Short Description

Remote weather data, versatile integration. Cellular-based (3G), solar-powered unit sends remote weather station data to the Internet.

Description

Remote weather data, versatile integration. GPRS cellular-based, solar-powered unit sends remote weather station data to the Internet.

Davis Vantage Connect sends comprehensive weather data to the web from remote locations, such as farms, vineyards, orchards, and other areas that lack power or a person to monitor the weather.

What is Vantage Connect?

- A weather station receiver and GPRS cellular modem.
- Pairs with Davis' Vantage Pro2 or Vantage Vue weather station integrated sensor suite to record barometric pressure, temperature, humidity, rainfall, wind, solar radiation and UV
- Add up to a further seven sensors, including soil moisture and temperature.
- Solar powered with battery backup; does not require any external power sources.
- Self-contained in a weather-resistant shelter.

How does Vantage Connect work?

- Uploads weather data through a cellular connection to WeatherLink.com in 5, 15, or 60-minute intervals, depending on the service plan you choose.
- Alerts you to alarm conditions in the field the moment they occur.

Additional Options

Wireless Integrated Sensor Suite (ISS) & Weather Station Options	Vantage Vue ISS (DI-6357OV)
	Vantage Pro 2 ISS (DI-6322OV)
	Vantage Pro 2 Plus ISS (DI-6327OV) (incl. UV & Solar Radiation)
	Vantage Pro 2 FARS ISS (DI-6323OV) (incl. 24-Hr Fan-Aspirated Radiation Shield)
	Vantage Pro 2 Plus FARS ISS (DI-6328OV) (incl. UV & Solar Radiation, 24-Hr Fan-Aspirated Radiation Shield)
	Vantage Pro2 Weather Station 6152UK
	Vantage Pro2 Plus Weather Station 6162UK (incl. UV & Solar Radiation)
	Vantage Pro2 Weather Station 6153UK (incl. 24-Hr Fan-Aspirated Radiation Shield)
	Vantage Pro2 Plus Weather Station 6163UK (incl. UV & Solar Radiation, 24-Hr Fan-Aspirated Radiation Shield)
Select Soil / Leaf Options	Soil / Leaf Station - Sensors Included (DI-6345CSOV)
	Soil / Leaf Station - No Sensors Included (DI-6345OV)
	Watermark Soil Moisture Sensor (DI-6440)
	Leaf Wetness Sensor (DI-6420)
	Soil/Water/Air Temperature Sensor (DI-6470)
Mounting Options	Universal Mounting Pole Kit (WS-7717) (Limited Offer)!
	Universal Crank-shaped Mounting Pole Kit (WS-7715-CRANK)
	Davis Mounting Pole Kit (DI-7717)
	Davis EZ-Mount Tripod (DI-7716-00)
