Brand

Davis Instruments

Graph, Analyse and Store Your Data

Your personal page gives you current condition readings for – Temperature, Humidity, Barometer, Wind Speed, Current Rain, Wind Direction, Total Rain, Rain Rate, Solar Radiation, Wind Rose, Local Forecast, Sunrise/Sunset, Moon Phase. With **WeatherLink Pro**, you can also store, read and graph your historical data ANYWHERE and ANYTIME on any major browser.

Explanation

Features

Bulletin with Current Conditions

Build and customise your bulletin dashboard to receive current data updates from all of your installed sensors. You can move and resize tiles to see the data just the way you like it.

Chart (requires Pro or Pro+ subscription)

Visualise any of your sensor data with custom line and bar charts on up to 4 different y-axes. Zoom into an hour of data or out to a full year to view details and trends.

Data (requires Pro or Pro+ subscription)

Access all of your raw sensor data at the click of a button. You can sort by date/time or data type and export any data set directly to an Excel-friendly .csv file.

Map

Use the WeatherLink Map to view and interact with the community of public stations in the worldwide WeatherLink Network. Click on a station to see a summary of current data and click the bulletin to see the station's customised weather dashboard.

Mobilize (requires Pro or Pro+ subscription)

Use the Davis Mobilize App on iOS or Android to create custom frost, weather, crop and irrigation views for web and mobile. It's powerful enough to help avoid losing your farm crop to frost, and fun for the data-savvy backyard gardener looking to perfect their tomato crop.

IPM (requires Pro+ subscription)

Access Integrated Pest Management (IPM) on Mobilize to link your weather and sensor data to actual pest risk, giving you a powerful new tool in protecting your crops from pest damage.

Data in Your Pocket

WeatherLink Mobile App brings your data and the Davis WeatherLink Network to your phone. Join the worldwide network of businesses, schools and hobbyists sharing their weather data with the world. WeatherLink lets you see your personal Davis Instruments weather station data and local forecasts, as well as explore other stations from around the world. Enjoy 7-day and hourly forecast, rain, barometer, solar radiation and many more.

Share Your Data

Upload

Upload your weather data to a growing list of third-party services including Weather Underground and CWOP (Citizen Weather Observer Program).

Embed

Embed iframe code into your personal website, customise your email signature with your weather data, or use the full screen option to display current conditions on a TV in the office or for public display.

Station links

Want to share your station data with a friend or the broader community without requiring them to log in? Share the Summary link or the Device URL to securely share your personal weather data.

Allow access

Pro and Pro+ upgrades allow you to share your personal weather station data and to allow access to historical data, charting, and other advanced features.

Ideal For

Professional, Education, Amateur, Interested, Gardeners, Agronomy
