

SpecConnect Web Portal - Pro Subscription (1 Year) for WiFi Modems

Product Images

Short Description

SpecConnect Pro Subscriptions, for use with Wifi modems. See all your live data using the powerful SpecConnect web portal.

Description

Monitor your crops from wherever you are.

Use this powerful tool to view and evaluate your real-time weather & environmental data for better decisions – be alerted to problems while they can be managed & only spray or water when necessary. SpecConnect can help improve yield and quality, conserve resources, increase profits and decrease risk.

- Easy to navigate from your computer, smart phone, or tablet
- Send customised alerts via text message or email when user-defined critical sensor thresholds have been breached
- Create custom reports and charts for full analyses of your data
- Map view allows you to see all station locations and current conditions
- 100% customisable dashboard
- Supports multiple user logins
- Download your data for offline analysis
- Optional plant disease and insect models.
