

Laqua Twin Sodium NA+ Meter

Product Images

Short Description

Measure sodium in nutrient solutions, water samples, and tissue sap in the field.

Description

Put the power of a laboratory right in your hands! Measure sodium in nutrient solutions, water samples, and tissue sap with a precision meter that can be taken directly to the field.

Additional Information

Country of Manufacture	United States
Brand	Spectrum Technologies
Explanation	<ul style="list-style-type: none">• New "Professional Grade" Meter• Measure nutrient solutions, soils, greenhouse soilless media, water samples and tissue sap• Waterproof pocket-sized meter with digital calibration• Sensors stores dry and are field replaceable• Accuracy correlates well with laboratory analysis• Automatic temperature compensation, waterproof, auto power-off
Contents	<ul style="list-style-type: none">• Includes two CR2032 batteries, case and calibration standards
Ideal For	Agronomy
Specification	<ul style="list-style-type: none">• Measurement Principle: Ion electrode• Sample Volume Required: 0.3 mL to 2.0 mL• Measurement Range: 23 to 2,300 ppm Na⁺• Calibration: 150 ppm and 2000 ppm Na⁺• Reproducibility: ± 10% or ± 10 ppm
